Done

After deletion and confirmation of the file maandrun_311220090821.doc the file is still visible and its still on the Orson server.

As you can there is no message just the tekst “maandrun_311220090821.doc” .

Same problem happens if I delete the file “maandrun.doc “. I confirm the deletion but cannot remove it.

Thanks for the response,

Jeroen
